I. INTRODUCTION

This document is a template for Microsoft *Word* versions 6.0 or later. Please respect the maximum length of extended abstracts (not more than **one page**).

II. PROCEDURE FOR EXTENDED ABSTRACT SUBMISSION

Each extended abstract must be prepared in the present **one-page two-column** format, including any figures and tables, and must be submitted electronically (Only **PDF file** will be accepted) at the symposium web site:

<http://www.isnm2005.org>

III. FORMATTING YOUR EXTENDED ABSTRACT

Use the **A4 paper size (21x29.7 cm)**. All printed material, including text, illustrations, and charts, must be kept within a print area 17.6 cm wide 25.5 cm high. Top and bottom margins are 1.5 cm and 2.7 cm, respectively, and left and right margins are 1.7 cm. Do not write or print outside the print area. All *text* must be in a two-column format. Columns are to be 8.5 cm wide, with a 0.6 cm space between them.

A. Main title

The **main title** (on the first page) should begin 1.7 cm from the top edge of the page, centered, and in **Times 16-point**, boldface type. The main title spans both columns. Capitalize the first letter of nouns, pronouns, verbs, adjectives, and adverbs.

B. Author name(s) and affiliation(s)

Author names have to be centered beneath the title and printed in **Times 12-point**, non-boldface type. **Affiliations** are centered below each author name, in **Times 10-point**, not bold. Include e-mail addresses. Follow the author information by 0.9 cm before the main text.

C. Text

Type your main **text** in Times **10-point**, single-spaced. Do **not** use double-spacing. All paragraphs should be indented 1 pica (12 point or 0.422 cm). Be sure your text is fully justified - that is, flush left and flush right. Please do not place any additional blank lines between paragraphs. Use boldface and/or italic to emphasize important words.

D. Figures and Tables

Position any figures and tables at the tops or bottoms of columns. Figure captions should be below the figures; table captions should be above the tables. Use the abbreviation "Fig. 1," even at the beginning of a sentence.

All graphics should be integrated into your manuscript. Black and white, clear photos are preferable to colored.

E. Numbering

Number reference citations consecutively in square brackets [1]. Refer simply to the reference number, as in [3].

F. Equations

Number equations consecutively with equation numbers in parentheses flush with the right margin, as in (1).

$$y = mx + q. \quad (1)$$

Be sure that the symbols in your equation have been defined before the equation appears or immediately.

IV. REFERENCES

List and number all bibliographical **references** in Times **8-point**, single-spaced, at the end of your paper. When referenced in the text, enclose the citation number in square brackets, for example [1].

For a paper citation:

[1] A.B.Name1 and C. Name2, "Paper title," *D Journal*, vol., no., Month, Year, pages.

For a book citation:

[2] A.B.Name, *Book Title*, Editor, City: Year, pages.

For a conference citation:
